

Bleeding Disorders Advocacy Day

Thursday, March 1

Bleeding Disorders Advocacy Day in Missouri will be March 1 in Jefferson City. Gateway Hemophilia Association and Midwest Hemophilia Association will sponsor the advocacy day at the capitol in Jefferson City. A Representative will update us on health care issues in Missouri at 8:30 a.m.

This is a great time to share your personal story, thank your elected officials for their support, and continue to stress the importance of access to care for the bleeding disorders community! All families, individuals, treatment center staff and industry members are invited to attend. Lunch will be provided for all attendees at 11:30 a.m.

We will work with each attendee to set-up appointments with your legislators, but you must register at www.gatewayhemophilia.org or at (314) 482-5973 by **February 2nd** so that an appointment can be made with your elected officials.

Gateway Hemophilia Association & Midwest Hemophilia Association
